Art Unit: 1731

The Prior Art rejections have been dropped, as the Prior Art of record does not teach treating digested pulp with about 0.002 to about 0.02 weight % organic sulfide chelating agent, after the digestion or during the bleaching.

Claims 7 and 9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claim is incomplete as it refers to bleaching, but a bleaching step has not been positively claimed. The claim should end with a bleaching step, e.g. “, and wherein the pulp treated with said organic sulfide chelating agent is bleached.”

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 9 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The term “is treated at the same time that it is undergoing pressurized oxygen delignification” was not originally disclosed. The instant specification only discloses treatment “before oxygen delignification”, see instant specification, page 11, line 10. On page 23, lines 9-12, the specification discloses that the additive is added to the pulp prior to the oxygen treatment.

It would appear that the pulp is first subjected to bleaching, treated with organic sulfide chelating agent and then oxygen delignified. A claim drawn to such a sequence including all the other limitations in claim 9 would be given favorable consideration.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
